

INTERNATIONAL PROJECT FOR

Girls & Women in Power for a Green Economy

What are green jobs and why are those so important nowadays?

The „Women4Green” project aims to raise awareness among young women about careers in the Green Economy and to enable them to choose a job in this field by providing them with the knowledge they need.

No matter if you are a young woman or working in career counselling, this project might be interesting for YOU!

The project works on:

Exploring
the green field

Designing
the green learning experience

Empowering
the female green community

Guiding
towards a green career

Learning
about the green economy

Empowering
the green job decision
